

PRO DIGITAL BACKPACK 33

DELSEY

Tripod Holder

Readily side mount your tripod for comfortable transport with easy access when required.

Superior Harness System

The adjustable harness system provides superior back support. Well padded shoulder straps, chest and waist belts, shoulder, back, and waist supports create air channels which keep your back cool and ensure your comfort all day.

Two Padlocks

PRO Digital Backpack comes with two padlocks. One for the digital camera system compartment, and one for the notebook compartment.

Top and Side Handles

Portability is a dream with the top and side handles. Plus both handles fold back neatly into the backpack when you're on the move for smart backpacking.

Compression Straps

Move around with, and work out of, the open standing backpack safe in the knowledge that your gear will not spill out. The compression straps in conjunction with the triangular wings on either side, keep the backpack open enough for easy access to gear and braces the front section in the process.

Ample room for:

1 or 2 Pro Digital or Pro 35mm cameras, with additional lenses, Pro Flash, Light Meter, Notebook computer, and all the traveling essentials you need.

Features:

- Padded main compartment safely holds all your photo gear.**
- Padded notebook compartment protects all other electronics.**
- Front organizer section with multiple pockets and zippered mesh pouch.**
- Padded adjustable harness system**
- Extreme weather cover**
- Tripod carry system**
